

# How to Add Content From Your Google Drive Into a Module

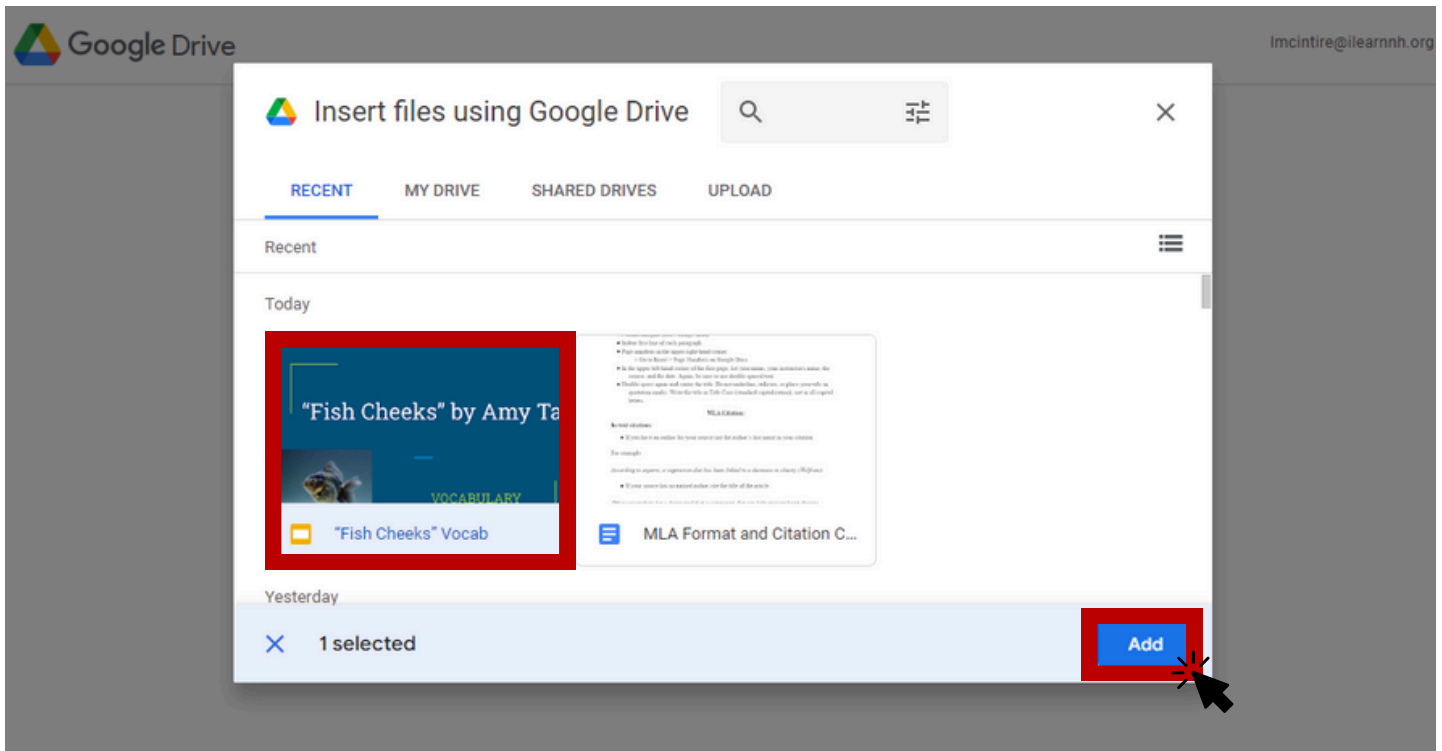

1) Add a new item to your module. In the dropdown menu, select "External Tool."

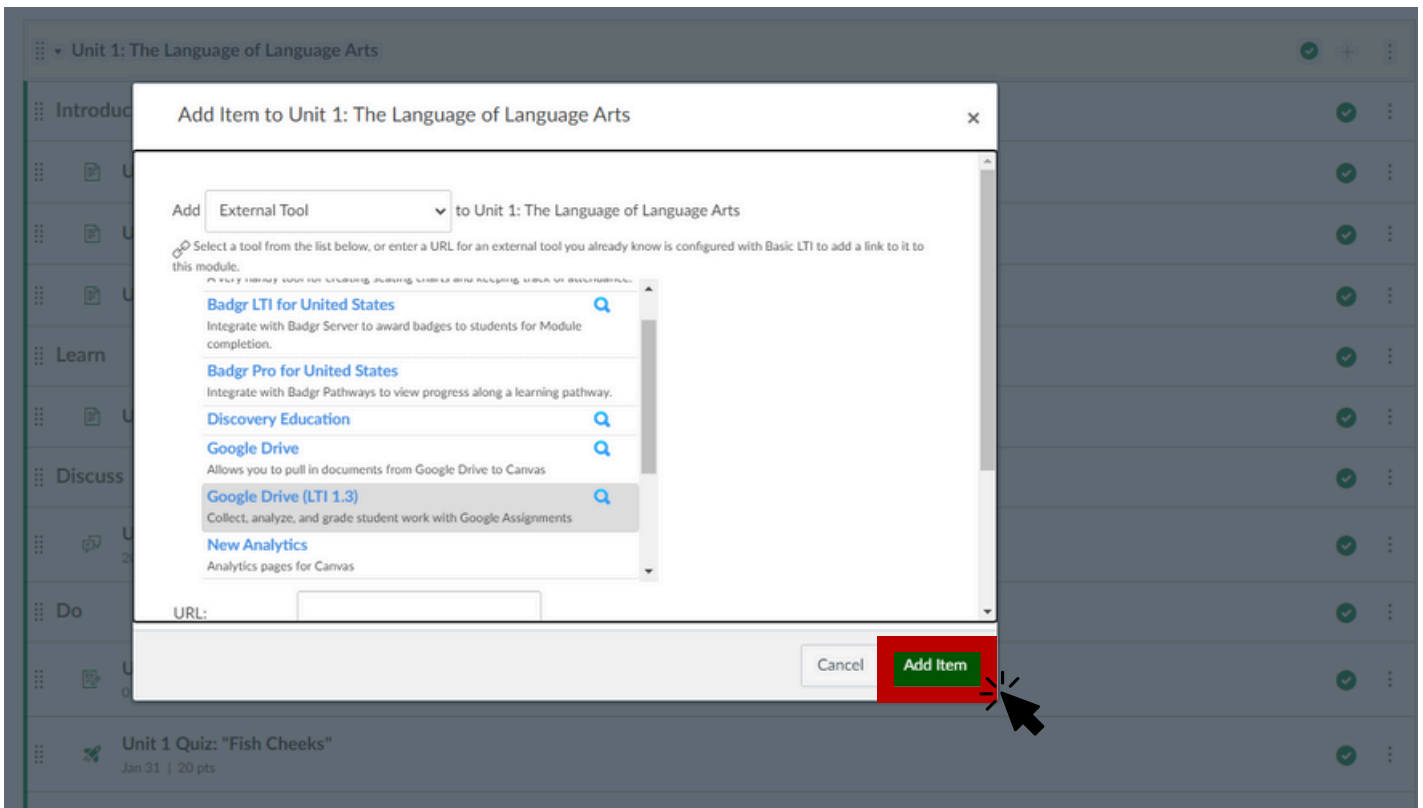

2) Scroll through the list of External Tools to find Google Drive LTI 1.3. Click on it.

3) A new window will appear, which will ask you to select which file you want to insert from your Google Drive. Once you have chosen the file you want, click "Add."

4) You will be taken back to the External Tool window. Click "Add Item" in the bottom right-hand corner.

5) You will now see your content in your module. It will automatically appear at the bottom of the module; you can move it by dragging and dropping.

The screenshot displays a course module titled "Unit 1: The Language of Language Arts". The module contains several sections and items, each with a status indicator (green checkmark) and a menu icon (three vertical dots). The items are:

- Introduction
- Unit 1 Introduction
